Rumah Hosting

Kepada Eko Budi Setiawan, S.Kom (Universitas Komputer Indonesia),

Ini adalah pemberitahuan bahwa invoice anda telah dibuat pada 01/03/2010.

Metode Pembayaran: Transfer Antar Bank

No. Pelanggan: 3257  
Invoice #596653  
Total Pembayaran: Rp. 142,000  
Tanggal Jatuh Tempo: 08/03/2010

**Biaya Kode Unik**  
**=MOHON DIPERHATIKAN=**

Untuk memudahkan pengecekan pembayaran anda kami dari Rumah Hosting Billing menerbitkan biaya kode unik untuk para pelanggan baru maupun lama. Biaya kode unik adalah tambahan biaya yang berguna untuk menandakan siapa yang melakukan pembayaran pada rekening kami.

Contoh:  
Jika Total tagihan anda Rp. 200.000 dan No Invoice anda adalah 587211 maka Biaya Kode unik anda adalah 3 Digit terakhir dari No Invoice anda " 211 "

Maka dana yang harus anda bayarkan adalah Rp. 200.211

**Invoice Items**

Mantap Pagi Small - ekobudisetiawan.com (01/03/2010 - 28/02/2011) Rp. 42,000

Rumah Hosting

Kepada Eko Budi Setiawan, S.Kom (Universitas Komputer Indonesia),  
Pembayaran Invoice #596653 sudah kami terima  
Tanggal Pembayaran: 08/03/2010  
Total yang Dibayarkan: Rp. 142,000  
Anda bisa melihat kembali Histori Transaksi, pada [Client Area](#).  
Apabila anda puas dengan layanan kami, tolong berikan komentar anda melalui link dibawah ini,  
**MailScanner has detected a possible fraud attempt from "www.rumahhosting.com" claiming to be <http://www.rumahhosting.com/testimonial>**  
Note: Email ini adalah Pemberitahuan resmi, bahwa kami sudah menerima pembayaran dari anda.

\*\*\*\* QUICK FAQ (Pertanyaan Umum) \*\*\*\*

**Tanya: Mengapa saya belum mendapatkan email yang berisi informasi account baru saya?**  
Jawab: Biasanya email mengenai rincian Informasi Account Baru masuk ke Spam/Junk Folder email anda. Jadi kami sarankan untuk memeriksa folder tersebut dan tandai email yang datangnya dari Rumah Hosting sebagai "Not Spam Email" atau sebagai alternatif lain, anda bisa Login ke [Client Area](#) lalu pilih bagian 'My Emails' Disana terdapat seluruh email yang kami kirimkan untuk anda.

**Tanya: Berapa lama Account saya akan aktif??**  
Jawab: Apabila anda melakukan konfirmasi pembayaran pada jam kerja (09:00 - 17:00 WIB), account anda akan aktif 1-3 jam setelah anda menerima email ini dan apabila anda melakukan konfirmasi pembayaran lewat dari jam kerja maka aktifasi account akan dilakukan ke esokan harinya.

**Tanya: Mengapa account saya belum aktif padahal sudah lebih dari 1x24 Jam?**  
Jawab: Kami sarankan untuk melakukan konfirmasi ulang via email ke [billing@rumahhosting.com](mailto:billing@rumahhosting.com)

# 7 – Membuat Subdomains

**cPanel Accelerated**

**CPANEL 11**

## Subdomains

Subdomains are URLs for different sections of your website. They use your main domain name and a prefix. For example, if your domain is `ekobudisetiawan.com` a sub-domain of your domain might be `support.ekobudisetiawan.com`.

Subdomains are relative to your account's home directory. The  icon signifies your home directory which is `/home/ekobudis.`

### Create a Subdomain

Subdomain : `atol` . `ekobudisetiawan.com`  

Document Root :  `/public_html/atol` 

### Modify a Subdomain

Search  Go

SUBDOMAINS.ROOT DOMAIN	DOCUMENT ROOT	REDIRECTION	ACTIONS
<code>elearning.ekobudisetiawan.com</code>	 <code>/public_html/elea</code> 	not redirected	<a href="#">Manage Redirection</a> <a href="#">Remove</a>
<code>fanny.ekobudisetiawan.com</code>	 <code>/public_html/fann</code> 	not redirected	<a href="#">Manage</a> <a href="#">Remove</a>

## MySQL Databases

MySQL Databases allow you to store lots of information in an easy to access manner. The databases themselves are not easily read by humans. MySQL databases are required by many web applications including some bulletin boards, content management systems, and others. To use a database, you'll need to create it. Only MySQL Users (different than mail or other users) that have privileges to access a database can read from or write to that database.

## Welcome to Joomla!

Congratulations on choosing Joomla! as your content management system. To help you get started, check out these excellent resources for securing your server and pointers to documentation and other helpful resources.

### Security

On the Internet, security is always a concern. For that reason, you are encouraged to subscribe to the [Joomla! Security Announcements](#) for the latest information on new Joomla! releases, emailed to you automatically.

If this is one of your first Web sites, security considerations may seem complicated and intimidating. There are three simple steps that go a long way towards securing a Web site: (1) regular backups; (2) prompt updates to the [latest Joomla! release](#); and (3) a [good Web host](#). There are many other important security considerations that you can learn about by reading the [Joomla! Security Checklist](#).

If you believe your Web site was attacked, or you think you have discovered a security issue in Joomla!, please do not post it in the Joomla! forums. Publishing this information could put other Web sites at risk. Instead, report possible security vulnerabilities to the [Joomla! Security Task Force](#).

### Learning Joomla!

A good place to start learning Joomla! is the "[Absolute Beginner's Guide to Joomla!](#)." There, you will find a Quick Start to Joomla! [guide](#) and [video](#), amongst many other tutorials. The [Joomla! Community Magazine](#) also has [articles for new learners](#) and experienced users, alike. A great place to look for answers is the [Frequently Asked Questions \(FAQ\)](#). If you are stuck on a particular screen in the Administrator (which is where you are now), try clicking the Help toolbar button to get assistance specific to that page.

If you still have questions, please feel free to use the [Joomla! Forums](#). The forums are an incredibly valuable resource for all levels of Joomla! users. Before you post a question, though, use the forum search (located at the top of each forum page) to see if the question has been asked and answered.

### Getting Involved

If you want to help make Joomla! better, consider getting involved. There are [many ways you can make a positive difference](#). Have fun using Joomla!.

# 21 – Hasil Running Joomla

 **Joomla!**<sup>TM</sup>  
...because open source matters

Yesterday all servers in the U.S. went out on strike in a bid to get more RAM and better CPUs. A spokes person said that the need for better RAM was due to some fool increasing the front-side bus speed. In future, buses will be told to slow down in residential motherboards.

# 22 – Create New Database

The screenshot shows the MySQL Databases section of the cPanel interface. At the top, there's a banner with the text "cPanel Accelerated". Below it, a heading says "MySQL Databases" with a MySQL logo. A descriptive text block explains that MySQL databases store information in an easy-to-access manner and are required by various web applications. It also mentions that users need privileges to access a database.

Below this, there are two buttons: "Video Tutorial" and "Jump to MySQL Users".

The main area features a "Create New Database" form. Inside, a text input field contains "New Database: ekobudis\_joomla" with a green checkmark icon to its right. Below the input is a "Create Database" button.

Underneath the form, there's a "Modify Databases" section with dropdown menus for "Check DB" set to "ekobudis\_wrdp1" and "Repair DB" set to "ekobudis\_wrdp1", each accompanied by a respective button.

At the bottom, there's a "Current Databases" table header with columns for DATABASE, SIZE, USERS, and ACTIONS. A URL "http://ekobudisetiawan.com:2082/cpsess9859778179/frontend/x3/sql/addb.html" is shown in the DATABASE column, with a "Go" button next to it.

The bottom navigation bar includes icons for back, forward, search, and other system functions.

# 23 – Create Database Sukses

The screenshot shows the cPanel MySQL Databases interface. At the top, there's a banner with the text "cPanel Accelerated". Below it, the "MySQL Databases" section is visible. A message indicates that a database named "ekobudis\_joomla" has been added successfully. A "Go Back" button is present. At the bottom, there's a navigation bar with links for Home, Trademarks, Help, Documentation, and Logout.

# 32 – Extract Wordpress

# 33 – Create Database dan Hak Akses

The screenshot shows the phpMyAdmin interface on a local host. The left sidebar lists databases, and the main area shows the 'ekobudis\_wordpress' database's users table with two entries: 'root' and another 'root' entry. A modal window titled 'Tambahkan pengguna' (Add user) is open, prompting for new user information.

**Informasi Masuk (Login Information)**

- Nama pengguna: ekobudis\_userwp
- Inang: Lokal (localhost)
- Kata Sandi: (password masked)
- Ketik ulang: (password masked)
- Hasilkannya kata sandi: Hasilkannya

**Basis data untuk pengguna (Database for user)**

- Tidak ada
- Buat basis data dengan nama yang sama dan beri semua hak
- Berikan semua hak untuk nama wildcard (pengguna\\_%)
- Berikan semua hak untuk basis data "ekobudis\_wordpress".

Tambahkan pengguna      Batal

# 34 – Wordpress Readme

The screenshot shows a Microsoft Internet Explorer window displaying the 'readme.html' file from a local XAMPP installation. The title bar reads 'C:\xampp\htdocs\atol\Pertemuan 13\wordpress\readme.html'. The main content area is titled 'Installation: Famous 5-minute install' and contains the following steps:

1. Unzip the package in an empty directory and upload everything.
2. Open [wp-admin/install.php](#) in your browser. It will take you through the process to set up a wp-config.php file with your database connection details.
  1. If for some reason this doesn't work, don't worry. It doesn't work on all web hosts. Open up wp-config-sample.php with a text editor like WordPad or similar and fill in your database connection details.
  2. Save the file as wp-config.php and upload it.
  3. Open [wp-admin/install.php](#) in your browser.
3. Once the configuration file is set up, the installer will set up the tables needed for your blog. If there is an error, double check your wp-config.php file, and try again. If it fails again, please go to the [support forums](#) with as much data as you can gather.
4. If you did not enter a password, note the password given to you. If you did not provide a username, it will be admin.
5. The installer should then send you to the [login page](#). Sign in with the username and password you chose during the installation. If a password was generated for you, you can then click on "Profile" to change the password.

# 35 – Wordpress Create Configuration

The screenshot shows a web browser window with the following details:

- Address Bar:** http://localhost/atol/Pertemuan%2013/wordpress/
- Title Bar:** WordPress > Error
- Content Area:** A large white space with the text "There doesn't seem to be a wp-config.php file. I need this before we can get started."
- Bottom Left:** A button labeled "Create a Configuration File"

Below the browser window, there is a text block:

There doesn't seem to be a wp-config.php file. I need this before we can get started.

Need more help? [We got it.](#)

You can create a wp-config.php file through a web interface, but this doesn't work for all server setups. The safest way is to manually create the file.

# 36 – Wordpress Readme

42

The screenshot shows a web browser window with the URL `localhost/ato1/Pertemuan 13/wordpress/wp-admin/setup-config.php?step=1`. The page title is "WordPress > Setup Config...". The main content is the "Setup Configuration" step, which asks for database connection details. It features a large blue "W" logo at the top. Below it, a message says: "Below you should enter your database connection details. If you're not sure about these, contact your host." The form fields are as follows:

<b>Database Name</b>	<input type="text" value="ekobudis_wordpress"/>	The name of the database you want to run WP in.
<b>User Name</b>	<input type="text" value="ekobudis_userwp"/>	Your MySQL username
<b>Password</b>	<input type="text" value="ekobudis_passwp"/>	...and your MySQL password.
<b>Database Host</b>	<input type="text" value="localhost"/>	You should be able to get this info from your web host, if localhost does not work.
<b>Table Prefix</b>	<input type="text" value="wp_"/>	If you want to run multiple WordPress installations in a single database, change this.

A "Submit" button is located at the bottom left of the form.

# 37 – Koneksi Database Sukses

A screenshot of a web browser window. The address bar shows 'localhost/Pertemuan 13/wordpress/wp-admin/setup-config.php?step=2'. The page content is as follows:

All right, sparky! You've made it through this part of the installation. WordPress can now communicate with your database. If you are ready, time now to...

[Run the install](#)

# 38 – Instal Wordpress

The screenshot shows a web browser window for the WordPress installation process. The URL in the address bar is `localhost/atl/Pertemuan 13/wordpress/wp-admin/install.php`. The page title is "WordPress > Installation".

**Welcome**

Welcome to the famous five minute WordPress installation process! You may want to browse the [ReadMe documentation](#) at your leisure. Otherwise, just fill in the information below and you'll be on your way to using the most extendable and powerful personal publishing platform in the world.

**Information needed**

Please provide the following information. Don't worry, you can always change these settings later.

**Site Title**: Eko Budi Setiawan Website

**Username**: ekobudisetiawan

**Username** hint: Usernames can have only alphanumeric characters, spaces, underscores, hyphens, periods and the @ symbol.

**Password, twice**:  
A password will be automatically generated for you if you leave this blank.

**Password, twice** fields:  
[REDACTED]  
[REDACTED]

**Password, twice** rating: Very weak

**Password, twice** hint: Hint: The password should be at least seven characters long. To make it stronger, use upper and lower case letters, numbers, and symbols like ! ^ ? \$ % ^ & ).

**Your E-mail**: mail@ekobudisetiawan.com

**Your E-mail** hint: Double-check your email address before continuing.

**Privacy**:  Allow search engines to index this site.

**Install WordPress**

# 39 – Instal Wordpress Sukses

The screenshot shows a web browser window with the following details:

- Title Bar:** WordPress > Installation
- Address Bar:** localhost/atal/Pertemuan 13/wordpress/wp-admin/install.php?step=2
- Toolbar:** Back, Forward, Stop, Refresh, Home, Google search bar, and various icons for bookmarks, download, and system.
- Content Area:**
  - A large blue "W" logo is centered at the top.
  - A "Success!" message is displayed in bold.
  - A text message: "WordPress has been installed. Were you expecting more steps? Sorry to disappoint."
  - User information:
    - Username: ekobudisetiawan
    - Password: *Your chosen password.*
  - A "Log In" button at the bottom.

# 40 – Login Wordpress

The screenshot shows a web browser window with the following details:

- Title Bar:** Eko Budi Setiawan Website > L...
- Address Bar:** localhost/atol/Pertemuan 13/wordpress/wp-login.php
- Toolbar:** Includes icons for Back, Forward, Stop, Refresh, Google search, Favorites, Downloads, YouTube, Home, and ABP.
- Content Area:** Displays the WordPress login form. The form includes:
  - A large blue "W" logo at the top center.
  - A "Username" field containing "ekobudisetiawan".
  - A "Password" field filled with numerous black dots.
  - A "Remember Me" checkbox followed by the text "Remember Me".
  - A blue "Log In" button.
- Links at the bottom:**
  - Lost your password?
  - ← Back to Eko Budi Setiawan Website

# 41 – Wordpress Dashboard

47

The screenshot shows the WordPress dashboard interface. On the left, a sidebar lists various site management options: Home, Updates, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings, and a Collapse menu. The main content area features a "Welcome to WordPress!" message and links for "Get Started" (Customize Your Site) and "Next Steps" (Write your first blog post, Add an About page, View your site). It also includes sections for "At a Glance" (1 Post, 1 Page, 1 Comment), "Activity" (Recently Published: Today, 12:24 pm - Hello world!), and "Quick Draft" (Title, What's on your mind?, Save Draft). A "WordPress News" section is also visible.

# 42 – Wordpress Running

A screenshot of a WordPress website running on a local host. The browser window shows two tabs: 'Dashboard - Eko Budi Setia...' and 'Eko Budi Setiawan Website...'. The main content area displays a single post titled 'Hello World!' with the text: 'Welcome to WordPress. This is your first post. Edit or delete it, then start blogging!'. The sidebar on the left contains navigation links for 'RECENT POSTS' (Hello world!), 'RECENT COMMENTS' (Mr WordPress on Hello world!), 'ARCHIVES' (June 2014), 'CATEGORIES' (Uncategorized), and 'META' (Site Admin). The top navigation bar includes links for 'SAMPLE PAGE' and a search icon.
